

How to use rsnsmember2member

The RSNSmember2member email group is a way for congregants to communicate within our membership to both seek and to share information.

You must be a synagogue member and already have your email address registered with the group in order to send and receive messages.

To post a message, send an email from your registered email address to rsnsmember2member@googlegroups.com

Type your message **exactly** how you want it sent out.

Including an appropriate subject line.

It is a good idea to include your name and contact info in the body of the email.

Your message will be sent as you type it.
